Summary

I'm currently a Co-op student at BCIT's Computer Systems Technology program in search of a Co-op for software development, software testing and web development. I am very passionate about developing new tools and programs to make people convenient and improve people's living efficiency. I extremely love to optimize or improve projects by learning new technologies. I also enjoy solving problems in different ways.

Highlight

- Adapting quickly to new environments and learning new technologies.
- Quickly recover from setbacks and correct problems in time.
- Able to work under high intensity and pressure and recover quickly.
- Excellent time management to complete projects on time.
- Passion about new technology and the environment.
- Like cooking.

Skills

- Proficient skills for building Java programs.
- Proficient skills in using HTML/CSS/JavaScript/Jquery.
- Ability to use a version control tool(GIT).
- Communication Skills with teamwork
- Proficient skills of using Microsoft Office,
- Familiar with Node.js

Employment History

January 2019 — October 2019   *Machine Operator*   **Canada Goose, Winnipeg**
- Worked in a team to complete time-sensitive tasks.
- Communicated with the different team members to ensure the normal operation of the assembly line.
- Deal with machine or product issues within a limited time and report to supervisor or production manager.

June 2018 — January 2019   *Part-time Worker*   **Wenkai Oriental Vegetables, Winnipeg**
- Worked in a fast pace environment under a heavy workload.
- Worked independently for packing, sorting and transportation without close supervision.
- Effectively handle stress and anxiety.

May 2018 — February 2019   *Machine Maintainer*   **BITMAX, Winnipeg**
- Set up to 200 clients in LAN, configure routers, IP and prepare the corresponding hardware.
- Learning from different fields of knowledge in a short time.
- Quickly and independently troubleshoot various machine errors including electricity, network or hardware problems.

October 2016 — February 2018   *Cook*   **Joey Restaurant(Polo Park), Winnipeg**
- Ability to communicate clearly and professionally with coworkers.
- Worked in a fast pace environment with time-limited tasks.
- Follow core recipes and ensure a quality and consistent outcome.

May 2016 — October 2016   *Line cook*   **Idol Asian Cuisine, Winnipeg**
- Worked as a self-starter and see where assistance may be needed.
- Problem-solving skills and be capable of working under pressure.
- Maintain a safe working environment.

Project

Oct 2020 — Dec 2020   *CST Calendar App*   **COMP 1800 Course Project**

Skills: `Javascript`, `Html`, `CSS`, `Firebase`, `Bootstrap`, `Github`

A browser-based web application to allow BCIT CST SET A students to schedule school-related tasks, assignments, deadlines into one consolidated calendar and also view them all in one place, along with their professor contact information and lecture room links.

Jan 2020   *https://qinsheng.ca*   **Website**

Skills: `Javascript`, `Html`, `CSS`, `Github`

A lightweight personal website to present my personal information with animations.
